The Dick Act of 1902

This report is a transcript of a recent video presentation by a patriot whose name will be withheld for reasons of security.

THE DICK ACT OF 1902

There’s a lot of stuff that’s happening out here in our old system.

I’m here to let you know that the Dick Act has never been repealed, and it cannot be repealed. This Act guarantees you your rights to any type of arm that you want.

I didn’t say weapons. I didn’t say firearms. I said arms. Understand the word difference in phrasing about what we’re talking about here.

Ladies and gentlemen, this is very significant, very significant. What we are running into as an issue is that they cannot regulate what you and I own and what you and I have or however many, as long as you pay for them. And you don’t have to sit here and keep records, cause they already have the records whenever you bought them.

The bottom line is you can buy them from anybody and that is how it works.

The Dick Act of 1902 under House Resolution 1165.4 comes back in and starts out with the basic cure. It puts a lot of restrictions on their side effects.

The Dick Act of 1902 also know as the Efficiency of Militia Bill, House Resolution 1165.4 of June 28, 1902, invalidates all... invalidates all so-called gun control laws. It also divides the militia into three distinct separate entities.

A free people ought not only to be armed and disciplined, but they should have sufficient arms and ammunition to maintain a status of independence from any who might attempt to abuse them, which would include their own government.

George Washington

The 1968 gun law that got passed in 1968: This invalidates it.

The three classes under HR 1165.4 provide for (1) the organized militia henceforth known as the national guard for the state territory of the District of Columbia, (2) the unorganized militia, and (3) regular army [the military].

The militia encompasses every able-bodied male between the age of 18 and 45 but it does go up higher than that because you’ve got military officers hired who now come into discrimination.

All members of the unorganized militia are to be... are to have the preferable right of the Second Amendment to keep and bear arms of any type and as many as they can afford to buy. It doesn’t say you have to have a receipt. If you can afford to buy them your entitled; if it costs you a buck or if it costs you a penny, you’re buying them. You can have them.

The Dick Act of 1902 cannot be repealed; to do so would violate the Bill of Attainders; and ex-pro-facto laws would be yet another gross violation of the United States Constitution and the Bill of Rights.

The President of the United States has zero authority... zero authority... zero authority, without violating the Constitution, to call the national guard to serve outside of the borders of the United States.

That also gives the President zero authority to regulate the ability to own certain arms, like AKs, and ARs. He has no authority to go out and say we’re going to ban...

No! You don’t have a right to ban these. You don’t have that authority. This would violate the Constitution, and violate the Bill of Attainders.

But ladies and gentlemen, this law is in full force and effect. It has been since 1902.

For those of you who wonder, it falls back under volume 32 of Public Law 33, Chapter 196; under Public Law 33.

Ladies and gentlemen, we have an absolute right to the Second Amendment. You do not have to have a gun permit. You don’t have to have permission. The problem is, how many of you are going to sit here and fight this? How many of you are willing to stand up and stand your ground on this? This is just like the Driver License issue.

ATF? Whoops! Is that another administrative agency? An ATF? Is this another administrative agency that’s regulating your ability to be able to own anything?

Doesn’t this fall back under Public Law 148, Stat. 1, State of Emergency, where they turn around and the President gives agencies...
the authority to regulate? Isn’t ATF an agency? Aren’t they trying to regulate you? Isn’t it an administrative agency that’s dragging you in? Isn’t there supposed to be an administrative court? Are you supposed to be an employee?

This regulation goes back on the police officers. It goes back on the sheriffs. It goes back on law enforcement. It does not come back in because remember what we said here — “a well regulated” militia, national guard, unorganized militia, and the military.

It does not use the word law enforcement. It does not give law enforcement the right to carry anything. They’re not militia. They’re not supposed to be a military force because that’s not what they’re calling them; they’re calling them a police department. They’re not supposed to be enforcing the right to carry a firearm. They do not have the authority to come in and do that.

On Thursday, October 4, 1917, Mr. Gordon, Mr. Speaker on pages 6836-6840 of the Congressional Records of September 10, 1917, the address of Charles E. Hughes delivered to an annual meeting of the American BAR association was printed.

In the address, Mr. Hughes said that the militia within the means of this provisions of the Constitution is to speak from the army of the United States.

Remember always, said Daniel Webster, that the great Principle of the Constitution on that subject is that the militia is the militia of the states, not that of the government. And this being the militia of the state, there is no part of the Constitution worded with greater care and more scrupulous jealousy than that was granted which limited the power of Congress over it.

Mr. Hughes then continued:

In order to execute the laws of the Union to suppress insurrection and rebellion, and invasion, it would be necessary to employ regular troops or to employ the militia, and the power given to Congress with respect to the militia was manifested to make a large standing army unnecessary, but as the service of the organized list can only be regulated by the national government for the limited purposes specified in the Constitution, it follows that the attorney general advised President Taft that the organized militia as such cannot be employed for offensive wartime outside of the limits of the United States.

By his own admission and by the citings of Daniel Webster’s opinion, Attorney General Mr. Hughes just effectively disproved and discredited the very point he attempted to establish to wit: — that by drafting the militia or any part of it these men can be divested of the protection of the Constitution of the United States drawing around them by limiting the use within the federal government, may make [more] of the militia suppressing insurrection and rebellion and invasion than executing the laws of the United States.

The militia, not police department, not law enforcement, the militia is supposed to be enforcing the laws of the United States. There is nothing in here that allows law enforcement. That now becomes a private army, that is arming a private army — that it is the militia that is to enforce the laws.

I’m not saying it; it is right here in the paperwork. The militia was set up for accountability. The militia was set up for the Lieber Code to come into these public offices to ensure that these people would not violate the people’s rights, and if they did and they got caught, the militia was to take them out and under the Lieber Code was to execute them immediately.

This isn’t me saying this. This is what is written by their side. These are their written words. Not yours and not mine.

This was created by the Bar Association, which is the barristry, the lawyers, the communist party. They are the ones who wrote this up. Not you and I.

We are not supposed to have law-enforcement. It’s supposed to be militia out here enforcing it. And your police department are not militia, because they’re under the control of the judges. Not under the control of the military. The militia is under the control of the Adjutant General, not the local judge.
Now stop and think about what I am telling you people out here. Comprehend what’s being said.

The term militia as used in the Courts of the United States includes every able bodied male citizen capable of bearing arms. And those have been further defined by the statutes of the United States and active since the adoption of the Constitution as all males capable of bearing arms between the ages of 18 and 45; that was back in that time period.

After the War of 1812 with England had progressed by 2-1/2 years an attempt was made by Congress to pass a bill, but lost, to allow the President to draft the youth between the ages of 18 and 45, upwards of 100,000 men, with whom he proposed the invasion of Canada the enemy territory. But ladies and gentlemen, your law enforcement . . . not your local sheriff department. Your law enforcement is your militia . . . not your local police department . . . not your local sheriff department.

Your law enforcement comes from the militia. Your unorganized militia. Your national guard. These are the ones who are supposed to be enforcing the laws of this country. And they don’t come under the jurisdiction of the Bar Association, and they don’t come under the jurisdiction of the local judge.

That Dick Act of 1902 cannot be repealed. It invalidates ALL gun laws, including the 1958, including the ban on what they call assault rifles. There is no “banned”. The sooner you people can understand the Dick Act and its like everything else — this falls back on an administrative agency, which is the President who is trying to regulate your right to the Second Amendment.

You have absolute authority to own what ever you want to own and own however many you want to own as long as you’re paying for ‘em, and it doesn’t give a dollar amount.

It doesn’t matter whether you traded for it. They can’t come in... “Oh! You’ve got 40 weapons, so we have to . . .

Oh, No! You don’t have the right to confiscate squat . . . No. 1, you are a police department and there is no authorization in the Constitution, and there is no authorization in the Militia Act that allows a law enforcement to be created.

Now this is something that none of you people gave any thought to. This is something you’ve never sat down and given one iota of thought to, but yet I’m sitting here and broadcasting it out to you and I’m reading the Congressional Record that comes back in and that backs this stuff up; there is not place out here that allows law enforcement.

This is a private standing army created by the Bar association. This leaves it up to the American people to determine what’s real and what’s wrong.

But ladies and gentlemen, again, this isn’t me saying it. We’re going back into all their Congressional Records, we’re going back into their own terminology.

They can not go back into all the Congressional Records without violating the Second Amendment. They can not disarm the American people!

If you choose to give it up that’s your choice. I realize that a lot of you out here may, with so much of this stuff going on in this country. Something you may not have given any thought about is that this stuff may be set up for government sleeper cells where they have come in and hypnotized people to come out at certain times in order to create a problem.

It goes right back in to “Wag that Dog”. Let’s go create an issue to get something off the President. Let’s go create an incident because there’s more and more stuff coming out about this Connecticut issue.

The problem about it is this: our system has lied to us on everything. And if they were to start telling us the truth we wouldn’t be here to believe them anyhow because they’ve lied.

But ladies and gentlemen, we’re sitting on the documentation. I’m telling where its at. The Dick Act of 1902 Dick Act.

We’re sitting on the Congressional Records, among this of what we’re talking about. There’s a whole file on the Dick Act that I have that clearly comes back and shows they cannot disarm the American people. They don’t have the authority. They don’t have the right. They don’t have anything that they can come back in and do, to justify anything that they’re doing.

Ok. It was in 1917 Congressional Records, on the Senate, September 10, 1917. Starts out on 6836 and goes to 6840, and talks about the 1902 Dick Act. This was in 1917, but ladies and gentlemen, do not be played as a fool. Do not sit there and allow them to come in and regulate you on what you can have and what you cannot have and come in and raid because this is a direct violation.

And I’m going to remind you people of the word firearm. For those who have not heard this, I want you to look at Title 27 CFR. Title 27 CFR, Code of Federal Regulations. I want you to look under 479.11, definition of the word firearm. That is, I also want you to get into Title 26 USC, Code 58.45. A firearm is a modified shotgun of a barrel 18 inches or less overall length less than 26 inches; a modified rifle of a barrel 18 inches or less overall length less than 26 inches; a fully automatic machine gun and a silence. These are what are classified as a firearm.

Then they have other titles of destructive devices, and rifles and pistols.

But they have them separated for
what they are. But the only things that are listed as firearms are four entities: 1: a modified shotgun, 2: a modified rifle, 3: a fully automatic machine gun, and 4: a silencer. These are your firearms.

But you know what? The Dick Act of 1902 blows that right out the window because under the Dick Act you can have these. Ooops! (You weren’t to know that).

Ladies and gentlemen, we’ve been lied to. Shanghaied, and bamboozled by the system so bad, by the Bar Association, by the lawyers, your lawyers won’t bring any of this stuff up. Your judges will suppress this, because if it ever gets out and people really start understanding it, like they would the bankruptcy of 1933, and the Federal Reserve Act of 1913, with FRNs as strictly internal strictly for the banks alone, and you’re not supposed to have any of them in your pockets. If you really understood this and the system, and understood that you understood it, ladies and gentlemen, there would be an uprising in this country. There would be a civil war. There would not be a lawyer or a judge out here that would be in this country.

If you people really truly would start pulling your head out of your butt and understanding the simplicity how simple this stuff really truly is, and learn how to argue it and how to stand your ground, there is no place in any of these laws that allows the police department to even come back into effect, there’s only one place, and it’s in the Constitution that dealt for the sheriff, but that is for prisons. That’s for prisons. That’s for protection in the courts. They don’t have the arresting authority out here. They’re to serve papers on you. But there’s nothing out here that allows a police department to be formed. It is strictly militia that is supposed to be enforcing the laws. And that comes under the Adjutant General. Ladies and gentlemen, start getting a grasp of what we’re talking about, start getting and comprehending what we’re talking about here.

Start understanding their written regulations; their written laws; their written intent. Start understanding the significance. That Dick Act of 1902, ladies and gentlemen, this is the biggest thing that we have coming in as a private attorney general and bounty hunter. This is in the same significant area.

That’s it. There’s no place in the laws that we come across that law of law enforcement. Your militia is supposed to be your law enforcement.

You and I are our militia. You and I are our unorganized militia. You and I are the enforcement.

Whoops! What did I sit here and tell you? You and I are the enforcement? You and I are a militia. You and I are the unorganized, you and I are the enforcement.

But we’re now organized. And even if we’re supposed to be unorganized we’re still not organized enough to know that we are the enforcement, because we’re still dealing with the Bar Association. We’re still dealing with the judges, and the lawyers. You and I are supposed to be the enforcement. You and I are the ones who are supposed to be sitting down and putting down insurrection and rebellion.

And these judges and lawyers, they are committing insurrection and they are in rebellion. They have overthrown our government. They have overthrown our system. They have embezzled our name, they have embezzled everything off us out of our account under the bankruptcy. They’ve stolen our identity, they keep doing human trafficking.

What are you going to do about it? Ladies and gentlemen, We need to start getting a better understanding of what the laws are, and how they are written, and how they are to be applied.

We need a better understanding. We need people to start joining forces and start standing up and we need to start working together. We need to start backing one another the best we can.

I’m giving you the best education. I’m telling you where this stuff is at. I’m trying to sit down and work with you people.

Donations. I’ll take all the donations that I can get. To fit to my time being involved here to help educate. For those who want to donate, it goes back to P.O. Box 435, High Shoals, North Carolina 28077.

Ladies and gentlemen, we need workshops up on this. We need workshops up on the Dick Act. We need workshops up on Drivers License. We need workshops up on the State of Emergency. We need workshops up on Child Services. We can’t do this all as one. We have to break this thing down per topic.

They give you 2-3 days to comprehend. But if you can understand the state of emergency you understand that 1913 Federal Reserve Act and you understand the State of Emergency where the President gave agencies the right to regulate.

Again, agencies, ATF; IRS; DOT; DMV; Child Services; your local county ordinances, that come in for code enforcement. These are all agencies. Everything you are dealing with is an agency out of that State of Emergency. Everything.

You’re not dealing with real people. You’re dealing with an agency. And these judges don’t want of admit this. Why? Because if you start understanding this you’ve got them in fraud, because your not part of the
administration. They can only regulate their own. They have no subject matter over the private citizen. These agencies are strictly for them and them alone.

There is nothing in the Dick Act that allows law enforcement to have any type of weaponry on their hip, whether it's a pistol, whether its a revolver, whether its AR, whether its a shotgun.

They're not entitled 'cause there's nothing in the law enforcement and their Dick Act that allows them, it is strictly militia and militia only. That's your law enforcement, ladies and gentlemen.

Give it some thought about what we're talking about. Give it some thought because we got a lot of militia people out here. We have an awful lot of militia people.

Go back and understand your rule. Go back and understand your purpose, what you function is. Understand what's your purpose and function. You're supposed to be in law enforcement. You have the authority over insurrection and rebellion to put it down. What are these lawyers and these judges doing? This is insurrection and rebellion. What are these bankers doing but insurrection and rebellion. They stole your identity. They stole your birth name. They're swindling your inheritance. They’re swindling your trust.

If you want to oppose these people, get educated. Get knowledgable. Understand what this stuff is all about. Learn how to come back in and apply it. Learn to come back in and start getting organized, and start working in a group.

I'm trying to break these things down to hopefully give you a better understanding. You can go back and do a little bit of research and grasp what is being said.

Ladies and gentlemen, I can only go so far. I can give you the information. You have to come back in and look it up yourself. And you want to get some workshops up. Otherwise take what I'm giving you. And comprehend it. I've learned this stuff on the same manner as what I'm teaching you.

I learned how to go do my own research.

But ladies and gentlemen, the choice is your. We're not trying to advocate anything here other than to stick up for your rights and don't allow them to violate their own rules and regulations, their own guidelines. And ladies and gentlemen, that is exactly what they are doing. They’re violating their own statutory law when it come down to you and me. They're depriving you and me of our rights under the Bill of Rights and under their own regulations that can only apply to them.

So I've given you enough here today for a basic understanding. That everything we're dealing with deal with agencies, that all come out of that State of Emergency under §2, that Public Law 148, Stat 1, upon the banking issue of war or defense, or State of Emergency. The President can sit here and point to an agency to regulate. ATF, IRS, DOT, DMV, Child Services; all this falls under the State of Emergency.

Comprehend it. Grasp it. Understand it and the rest of this stuff will fall into place for you. The rest of it will go Click. Click.
