In my role as a talk show host, I have been approached by individuals who claim to have “insider information” about what is coming, and according to these individuals, what is coming is very bad. Most credible sources demand complete anonymity. As a result, I have found myself in a position to try and evaluate whether to write about and broadcast some very controversial information.

Sometimes, my insider information turns out to be stunningly accurate as evidenced by the Chris Stevens murder story which was spot on. My information on the Aurora Batman shootings has also proven to be very accurate.

There is a risk in using unnamed sources. Simply, they could be wrong, they could be disinformation agents or they might just be crazy as they are looking for their 15 minutes of fame. It takes a degree of courage to air information derived from confidential sources.

Therefore, I want to thank Doug Hagmann for daring to publish his dire warnings which come from an inside source at DHS. I have subsequently decided to reveal what I know as well.

The decision to air these warnings will undoubtedly encourage others to come forward. Hopefully, so many “insiders” will come forward that it will become impossible to hide what it is coming from those who are actively seeking answers.

To the general public, it does not matter what they’re told for they will still believe that the government will take care of them, CNN truthfully reports the news and Santa Claus exists. As a result, these fools will never know what hit them.
Although the Hagmann warnings differ somewhat from my sources, there are some common threads. One area that Hagmann’s source did not focus on is the dropping out of sight by ex-federal officials and prominent figures on Wall Street. and that is the remaining focus of this article.

**The Marrs Observation**

In a December 9, 2012 interview on The Common Sense Show, Jim Marrs discussed how approximately 400-500 top level bankers have left their positions and have gone into seclusion.

Marrs reminded my listening audience of how the elite have developed seed vaults for which they only have access to. Marrs was clearly alluding to the fact that some very bad events are coming and the global elite are aware of it and are moving to meet the threat.

My insider sources inform me that the same thing is happening in various federal organizations who have recently retired from the CIA, DHS, NSA and FEMA. **This fact is indisputable.**

I have firsthand knowledge of three ex-fed officials and their families who have relocated to safety enclaves when doing so was very disruptive to their respective family’s lives. Increasingly, it is looking like some major event(s) is/are coming and persons with insider information are attempting to remove themselves from harm’s way.

**Massive Retirements From The Alphabet Soup Agencies**

When government officials, from the various alphabet soup agencies, retire en masse, it is not necessarily a noteworthy event. However, when the same officials retire en masse and then relocate to form their own survivalist enclaves, then this is something that we should all sit up and take notice of especially when we are seeing the same behavior on the part of Wall Street executives.
In my dealings with purported alphabet soup agency informants, I have been receiving some very dire warnings in terms of what lies ahead for America.

**Given the above facts, it should be understandable why I found the recent Hagmann interview with Rosebud to be a little bit more than interesting.**

I have had conversations with two insiders and a relative of another insider who tell similar stories of a coming series of apocalyptic events.

Much of the Hagmann information, to a large extent, corresponds to the information I’ve received except for the fact that many ex-feds are forming self-sustaining communities.

**Therefore, this installment will strictly deal with the fact that officials from the NSA, CIA, DHS and FEMA are retiring/early retiring and going into seclusion with their former comrades in arms.**

**DHS and CIA Relocations**

It is a matter of official agency policy that some current DHS and CIA officials and their families will be provided safe sanctuary in various strategic locations in Colorado in times of trouble.

Most people in the know are aware of the underground facilities which lies below the Denver International Airport which has an underground connected railway to the Cheyenne Mountain NORAD/Fort Carson/Peterson Air Force Base underground facilities.

The structures are part of the Continuity of Government program developed by the United States government in the early days of the Cold War.

**However, these facilities are increasingly becoming the planned refuge for many of the global elite residing within the United States when all hell breaks loose.**
In September 2011, the evacuation of the elite to this safe hideaway was rehearsed in the DHS exercise known as Operation Mountain Guardian in which the Denver airport was shut down to commercial air travel except for specific, undesignated planes which were allowed to land in preparation for some staged catastrophe.

This aforementioned event is not newsworthy because it has been reported in the mainstream.

**However, where this even becomes noteworthy to the public is because it is not coincidental that the CIA has relocated its major data collection facilities to underground structures in the Denver International Airport.**

The implications for residents living in or near the Washington DC Metropolitan area should be clear. The planned obsolescence for the nation’s capital is becoming increasingly apparent.

If I were you and I lived in this area, I would be looking for a new place to live in the very near future. The previous information is what is publicly available.

**The following information has not been disseminated but is highly relevant to what lies ahead.**

**Ex-CIA and DHS Relocations**

Parallel to the Colorado being prepared to become the new capital, it is highly relevant to note that retired officials from the **DHS and the CIA, who are not part of the privileged elite but who know what is coming, have developed their own enclaves in the Rocky Mountains outside of Denver and Colorado Springs.**

As it has been described to me that these facilities are a poor man’s imitation of the Denver International Airport facilities. The structures are largely natural, but are very well equipped and the resources include a self-contained air supply.
My source for this information is a former DHS insider. This is the same insider who revealed to me in mid-2008 of a rift between the old guard of the New World Order and the up and coming new wealth of the same group. His information at that time proved to highly credible then and I believe that this is credible as well.

**NSA Relocations**

Recently, retired officials from the **NSA have relocated to an area in the Ozarks** where they have access to underground safety zone which have/are being transformed into mini-villages of self-sustainable protection.

Their properties consist typically of 5 to 10 acres for each family, contains a portable water supply, residents are armed to the teeth, have alternative communications that are not reliant on the grid and have years of stored food.

My source is an individual who retired from the NSA almost two years ago. 

**His decision to participate in the relocation was triggered by the impending re-election of President Obama which he said will hasten the onslaught of what is to come because Obama’s administration fully embraces the destruction of America.**

**Ex-FEMA Relocations**

Recently retired officials from FEMA are relocating to mountainous areas in North Carolina. Their enclave contains the same resources involving air, water, food and guns.

These enclaves also include underground structures which are sensibly self-contained and can serve to isolate the inhabitants from the outside.

**I have two sources on this information which includes a family member and a retired FEMA official who has chosen not to participate in this relocation.**
The nonparticipant ex-official from FEMA did not seek sanctuary with these groups because he feels that several of these enclaves will be targeted for destruction by the powers that be because of the knowledge contained by the inhabitants in this case of “dead men tell no tales.”

This makes sense because it would allow the elite, following the coming cataclysms, to rewrite history in their own version without any contradiction from knowledgeable individuals that know what really has gone on.

This insider knowledge is a threat would serve as an obstacle to the new truth. Personally, I think this view has a great deal of merit.

**Conclusion**

I fully realize that unnamed sources don’t carry as much credibility as documented sources. However, as similar stories make their way into the national discussion, it might be wise to take a closer look.

I don't ask that the facts presented here be taken at face value; I encourage everyone to do their own research and if you find credibility to the claims made in the following parts in this series, it would be prudent to take the proper precautions.

What is coming, you ask? That will be the topic of part two.

**PART 2**

**Insiders Warn of More False Flags to Confiscate Guns**

There is a chill that is settling in over the country. In my years on the planet, I have never seen such a foreboding of collective dread and doom. The re-election of Obama has seemingly brought these feelings of extreme
apprehension to the forefront. My sources, retired ex-feds, tell me that America is in much more danger than just a looming and catastrophic depression, resulting food riots and extreme government suppression of civil disobedience.

Soon, if my sources are correct, nobody will be safe, not even the politicians. I would add that my sources, as revealed in part one of this series, are voting with their feet as they are joining other ex-federal official and several hundred Wall Street bankers by going into hiding in order to escape what they believe is coming.

**Why the NDAA?**

The NDAA allows the government to play Gestapo with the population.

In fact many of us in alternative media have been fearful of the NDAA because we are concerned that it will be used against us if we ever uncover a story which is too sensitive, and that we will just be “disappeared.”

However, my sources, ex-feds from FEMA and DHS, tell me that the reason that the NDAA was passed was to frighten federal would-be whistleblowers into silence.

The forces behind gun confiscation want to come like a thief in the night with little or no warning so as not to stir up any more opposition than need be.

Some ex-feds continue to talk behind the scenes because they do not agree with what is being planned and implemented, but I believe that they do so at their own peril because of the threat of the NDAA.

In part one of this series, I detailed about how I have learned that there are settlements of ex-federal officials who have gone into relative “hiding”, with some forming enclaves with like-minded people from the same background and professional affiliations.
Uniformly, they seek to avoid the draconian imposition of martial law and accompanying gun confiscation.

The second phase of what is planned for America, following gun confiscation and martial law, contains a degree of oppression never before seen in our country and will rival some of the world’s darkest days.

This part of the story details how the government plans to get our guns.

Gun confiscation is the primary short-term goal of the globalist forces which have hijacked our country.

Americans, in large numbers cannot be permitted to maintain private gun ownership.

One of my sources states that the dark side of our government refers to private gun owners in America as the Viet Cong.

The historical reference should be obvious as American forces were not able to subdue South Vietnam because the communist farmers by day became determined foes by night and no matter how hard American forces would try, they were not able to separate the Viet Cong from their weapon supplies.

The globalists seek to avoid history repeating itself here in America.

**Guns Are the Last Bastion of American Freedom**

America can never become a subjugated nation so long as we have 300 million guns in our possession.

The ultimate goal of the globalists is the total destruction of America. These two facts are on a collision course.
My sources, in effect, have said that the powers-that-be are ultimately seeking to make America lower than a third world country.

All of my sources are uniform in this point in that the globalists want to destroy our dollar, our culture, our language and most of all, our Constitution because it is antithetical to the establishment of a complete police state grid where a few have the power of life and death over the many.

Many ex-fed sources feel that if the American economy was merely crashed by the planned destruction of the American dollar, that there are enough Americans with the ability to rebuild this country, that we would be able to create an even stronger America than before.

The globalists view traditional American notions of freedom and resilience as a form of virulent cancer which must be totally cut out and destroyed.

When George W. Bush said “they hate us because of our freedom,” he was right.

However, in all candor, he should have been talking about the globalists who have hijacked our government, which are the ones who hate our freedoms, not the imaginary terrorist threats that the globalists have created in order to strip away our civil liberties.

Our guns are the backbone of our strength because our guns give us the ability to resist foreign occupation and throw off the shackles of an oppressive government.

Every source has stated that getting as many guns as possible out of the hands of the people is the number one goal.

What does it say about how evil the government has become when ex-federal officials from the alphabet soup agencies have gone into hiding because even they are afraid of what is coming?
In short, our guns must be seized and this is how I have been told they are going to accomplish this goal.

**Gun Confiscation**

Most well-informed sources, including my own, believe that we are on the precipice of martial law. However, the globalists do not want a lot of direct confrontation in the early stages with a majority of the population.

Their 1.6 billion rounds of recently purchased DHS ammunition will only carry them so far. Therefore, before martial law can be carried out against a minimal amount of opposition, as many guns as possible must be seized, without sparking a Lexington and Concord event.

The fact that these ex-feds and Wall Street banking executives have gone into hiding at this point is not coincidental.

The potential for gun confiscation to become a flash point for civil war is significant and these people and their families were in a rush to get out of the cities and into their perceived safe havens.

The guns must seized through a series of incremental actions by government and by the purveyors of false flag attacks in order to resurrect the spirit of the Reichstag fire in order to give the government the pretext that they need to totally subjugate the American people.

I cannot over emphasize what I have been told. The guns are the target. For now, everything is about getting the guns. Along these lines, I have been told that the leadership will likely be targeted, set up if you will, in embarrassing criminal endeavors (e.g. child porn) in order to discredit their pro gun stance.
Please allow me a digression. Here we have criminal government which shipped tens of thousands of guns into Mexico in order to undermine the Second Amendment under Fast and Furious.

**Holder was in contempt of Congress for refusing to testify, Obama tells the fairy tale that he did not know about Fast and Furious, conducted right under his nose, which resulted in the death of 40,000 Mexicans, last year alone, 300 Americans and three border patrol including Brian Terry whose family is suing the government over his death.**

Obama has killed hundreds, if not thousands of children, in his Predator drone attacks in various foreign countries. Not one federal official has gone to jail.

**And this criminal government wants your guns?**

**You would have to be dumber than a box of rocks to surrender your guns to these criminals and render yourself and your family defenseless.**

**According to my sources, gun confiscation will be achieved in two phases.**

There will continue to be false flag operations (e.g. Batman and Sandy Hook shootings) against individual citizens in order to achieve a public consensus against the private ownership of guns.

The media will continue to beat the anti-gun drum and they are already having some effect.

**One of my sources thinks that as many as 25% of American citizens can be influenced to participate in gun buy-back operations.**

As an aside, we are already witnessing a well-orchestrated psyop against gun owners through publishing gun owners names and locations in New York City.
The full court press is on and the guilt meter for gun owners is going to be ramped up after the inauguration.

My sources are of like mind when they say that if Congress will not sign on to the UN Gun Ban Treaty, Obama will incrementally ban guns through a series progressively draconian executive orders, with each likely to follow another progressively horrific false flag attack.

**One of my sources felt that at some point in America, gun ownership will eventually become a capital crime.**

It is estimated by the DHS insider that as many as 70% of the guns can be confiscated through these Obama Executive Orders and accompanying compliance.

**The belief is that most Americans will buckle to perceived authority when push comes to shove. I agree, as we have become a nation of sheep.**

**I asked how far the false flag attack will go in their intensity and lethality.**

I was told that the psychotropically, mind controlled lone gunmen who shoot up the malls and schools is wearing thin in terms of public believability and that plans are now in effect to ramp up the body count by using a different strategy.

**All of my sources agree that the Batman Aurora massacre was a false flag attack but it quickly lost its punch because there were too many holes in the story** and the alternative media was quick to point out the implausibility of the government’s explanation and the mainstream media could not hold together the story because of all the provable lies and inconsistencies.

Since the election, America has seen three mass shootings and each is championed as a reason to seize American guns.
The Sandy Hook shootings are riddled with just as many holes as the Batman shootings, but the administration has control of most of the media and the media is putting on the full court press for de facto gun confiscation as they continue to assume facts not in evidence against Lanza at Sandy Hook.

I was told there were three shooters at Sandy Hook.

It is likely that all three are now dead in order to cover their tracks.

Former FBI informant, Larry Grathwohl, an infiltrator of Obama’s original backers from the Weathermen Underground with Bill Ayers, has also told me that the word on the street is that two teachers took down Lanza.

Another unnamed source told me that there were at least 3 other shooters, not including Lanza.

I must say that the evidence is compelling as we listen to the raw police radio recordings where the police are clearly stating that they have two shooters in custody, after two teachers reported seeing two shooters run by the gym.

VIDEO 1: http://youtu.be/ETkrxfYoQtc

In addition, CBS News reported that they had a man wearing “camo” in custody.

What do you want to bet that these three individuals are no longer around to tell their side of the story?

VIDEO 2: http://youtu.be/apwTd-B_MP8

Here is another account of another arrest in these tragic shootings.

VIDEO 3: http://youtu.be/zY9hQQ2h6m8
If Sandy Hook is a false flag event, and it has all the earmarks of being every bit of a false flag as the Batman shootings, what will they stop at if they are willing to murder our children in order to get our guns?

The public is asking a lot questions, even those that think the corporate news is objective in their reporting.

Let me be clear on this one point, if this government is willing to murder innocent children to get our guns, how far are they willing to go?

Does that give any of you any notion about how bad things could soon become?

**Phase Two: Widespread “Terrorist Attacks”**

All of my sources are in agreement that we are in the midst of series of escalating false flag events which will tear down much of the opposition to seizing our guns.

I asked what escalating meant and one of my sources have told they will go as far as they need to in order to get what they want. I have been told that school and mall shootings will soon escalate to bigger and more horrific mock terrorist events, Mossad style.

I asked my DHS source to define bigger and more horrific and he said all options are on the table.

I asked if that meant nuclear and he said he believed that going nuclear is the last line of defense in this strategy which is designed to bring about martial law.

However, my other sources tell me that the coming false flag events could go biological and involve a one or two densely populated areas.
For many reasons, I believe that Chicago will be the site of a horrific false flag attack.

For individuals who think a false flag upon Chicago sounds crazy, ask yourself why Rahm Emanuel, most likely a Mossad agent, would leave a high level cabinet post in the Obama Administration and step down to the relative lowly position of being a mayor of a city?

The simple and obvious answer is that this foreign asset was put in place to carry out the task of overseeing a false flag event, so big, so devastating, that the Obama Administration will have their pretext to execute martial law in order to stem the wave of

(1) massive protests which will surely accompany the globalist plans to have the United States commence a war in the Middle East over Iran’s insistence over selling oil to Russia and China for gold, thus forsaking the petrodollar; or,

(2) a false flag terrorist attack upon a major American city as a pretext to martial law and total seizure of most guns.

Two of my sources agree with logic of this assessment, although neither has any direct knowledge of Chicago being the site of a false flag attack.

However, I would encourage you to ask yourself, why did Obama sell his Chicago residence and take up permanent residence in Hawaii, his alleged birthplace?

My original source for this information about Chicago becoming the victim of a false flag attack was Jeff Joe Black. I first encountered the eccentric Black as he frequently called into my talk show.

Some of his information was intriguing and I had several off air conversations with him.

At one point, Black was scheduled to be a guest on my talk show and Black cancelled at the last minute. Black informed me that he feared for his life and was going into hiding, which he subsequently did.
Earlier this year, Black resurfaced and contacted me. We spoke a couple of times about his appearing on my show to talk about Emanuel and his evil intentions towards Chicago.

Why do I think that Black was on to something nefarious about Emanuel? **Because Black appears to have been murdered this past October and his death is being investigated as a homicide.**

His supposed murder was also recently reported on RBN. Black told me, on several occasions, that his life was in danger and he was **obviously correct.**

Based upon the combination of my unnamed sources and what Black had told me, I still believe that we are going to see Chicago being the site of a massive false flag operation which will be the catalyst to martial law.

**This will follow a massive wave of house to house gun confiscations.**

My sources refused to speculate as to the specific site of a false flag attack, but they are uniform that this would be an event which will take place as a lead up to the implementation of martial law.

As an aside here is a video of Black being arrested for protesting after he filed paperwork challenging Emanuel’s eligibility to run for mayor based upon this status of being a non-resident in Chicago.

**VIDEO 4:** [http://youtu.be/LIObTCfcvg4](http://youtu.be/LIObTCfcvg4)

**Conclusion**

Please allow me to be very clear. Soon, and from all indications, based upon the fact that some ex-feds have recently gone into hiding, I would say that this phase will follow congressional action on gun control and Obama’s rollout of his new set of executive orders designed to separate Americans from their guns.

Nobody has any firm time estimates.
In saying goodbye to one of my sources as he was moving to his safe haven, I asked him if this would be over before the end of an Obama second term, and he felt that without a doubt that it would be.

Obama is the right man at the right time to carry out this agenda on behalf of his handlers.

What will martial law look like? What will follow the implementation of martial law and gun confiscation?

This will be the topic of part three of this series.

**PART 3:**

**You Are Playing In a Game With No Rules**

We sit in the aftermath of Sandy Hook debating what to do about the murder of innocent men, women and children in America’s gun free zones.

There are some politicians, two in Arizona, who want to protect our children while they attend schools. Arizona State Attorney General, Tom Horne, has unveiled a plan in which each school campus in my home state would be required to have at least one armed staff member.

In my opinion that is not enough, but at least it is a productive start.

Hypothetically, can anyone argue that schools would be the safest place in America if 10 staff members on each campus were trained and armed?

The question is rhetorical because the answer is obvious.

Horne’s idea is not new. In fact, he is copying what my friend, former Arizona State Senator Jack Harper proposed four years ago. Harper’s idea was soundly defeated and continued to leave Arizona’s students defenseless.
I call Harper a friend because he was helpful in helping me save my community of 2000 rural residents from having their homes stolen by the State of Arizona without a plan in place to pay one dime in compensation.

**Why was this done to us?** Because my community sits near a planned CANAMEX Highway, as well as the fact that we sit on the state’s largest underground water aquifer.

We are in the way; the powers that be wanted us gone, and they did not want to pay anything for the planned loss of our properties.

Because I became the spokesperson of our community, this launched my writing and radio career. Jack Harper, like a lot of politicians, knows the score about the globalists takeover of this country.

**Once a rising star in Arizona state politics, Jack Harper made the mistake of challenging voter fraud in Arizona.**

As a result of his vocal attacks on the lack of integrity on the voting system in place in Maricopa County, Jack’s political career went south and he was increasingly portrayed as a delusional conspiracy theorist who was prone to knee-jerk reactions.

The point in bringing up Harper is that there are politicians who fully understand that our country has been conquered and, as a result, when they challenge the status quo, they are marginalized.

**The point of the Harper revelation is to point out that there will be politician who will ride in on their white horse and save the day.**

**Where will the resistance come from, you ask?**

**Look in the mirror, because the American people are on their own, and God help us if we ever give up our guns.**
Harper and Horne’s idea of arming school personnel goes a long way toward protecting our children. I predict that Horne’s idea will suffer the same fate as Harper’s. Protecting the children, in fact, protecting all of the citizens in the United States is the not the objective of the Obama Administration!

Ask yourself, would it be easier to protect school children by arming trained personnel or to risk civil war by confiscating guns?

Further, Obama’s children are protected by 11 armed guards while they attend school. Why are Obama’s children more precious and deserve more protection than the Sandy Hook children?

Anyone with an IQ over room temperature should realize that getting our guns is the sole objective of these false flag attacks.

Whether Sandy Hook was a false flag event, or not, the children at Sandy Hook are NWO fodder for gun confiscation. On that point, there can be no argument.

Therefore, if the government does not want to directly protect our children, why are they going through the charade to get our guns in the name of protecting our children?

George Orwell would be proud of this 1984 example of doublespeak.

Why They Want Our Guns

If you were going to rob one of two homes, what would you choose? Would you choose a home that clearly has armed family members; or, would you choose the home where the best weapon in the house is a butter knife?

This is the choice being made by the Obama Administration.

They have plans to loot your personal resources as they simultaneously facilitate your demise.

In the following paragraphs, you will see why you must be disarmed at all costs.
• The United States has unsustainable debt.
• The United States is crumbling under the burden of empire and is fighting wars we cannot afford.
• The United States treasury has been plundered by the bankers and, with QE unlimited, there is no end to the plundering caused by the illegal banker activities involving the futures and derivatives markets.
• The dollar will collapse. It is no longer a matter of if, but when.
• The globalists are taking steps to steal as many assets from the American people as possible before the collapse.

For example, the Federal Reserve is printing $40 billion dollars per month in mortgage backed securities (MBS), each and every month, in order to buy properties in the United States.

The total estimated real estate worth of the United States is placed at a little over $23 trillion. When one begins to calculate the real estate acquisition power of the Federal Reserve’s MBS program being done with OPM (other people’s money) - i.e. your money and my money - one does not have to be economic expert to spell the word feudalism.

Just like in the movie, Hunger Games, the government will soon be the major landlord in America as it moves to control all important resources.

**Does the current mortgage-related fraud make a little more sense to you now?**

Does the collapse of the housing bubble, which significantly lowered the net worth of the nation’s real estate market come into play as we watch the Federal Reserve gobble up $40 billion dollars of property each month at dramatically reduced prices brought on by their illegal Wall Street Ponzi schemes?

Even Ray Charles could see that these events are not coincidental.
But hold on to your hat, as this is just the beginning.

On August 9th of 2012, the 7th Circuit Court of Appeals ruled that once a depositor places money in the bank, the bank can do whatever they see fit with your money.

In other words, the assets in your bank account could be stolen tomorrow and there is not a damn thing you can legally do about it. The canary in the mine for this violation of the public trust took place with MF Global when Jon Corzine, former Goldman Sachs official as well as the former Governor and Senator from New Jersey, oversaw the theft of $1.2 billion in secured private investment accounts.

In other words, this money had already been earned and was not at risk, but it was stolen; and the government overseer of this industry, CME’s Gary Gensler (a former Goldman Sachs official) refused to act on the theft of accounts overseen by Corzine.

But it gets worse.

Do you remember that little organization called MERS which was caught selling multiple notes representing one individual mortgage note?

Your mortgage note could literally be held by a couple of dozen mortgage companies that could move to foreclose on your mortgage note even though you are current on your payments.

I did a brief check on my note and did a title search. Fortunately, I can only find one mortgage note to my property. However, when I looked at the mortgage agreement I have with Wells Fargo, it specifically states - in the fine print of course - that Wells Fargo retains the right to sell my mortgage note and is not responsible for the conduct of any party connected to the transaction. In simple terms, this is a license to steal.
According the authoritative book, Clouded Titles, hundreds of thousands of properties have been stolen in this manner.

Now ask yourself, if you knew that you were about to lose everything, what would you do? Well, you would have a garage sale in which you would try and get as much value as you could for things that would not be of use to you following your economic collapse.

This is what is happening today in America’s markets and the Federal Reserve is behind it.

THEY KNOW THAT AN ECONOMIC COLLAPSE IS COMING AND THEY ARE TRYING OBTAIN AS MANY ASSETS AS POSSIBLE!

- To add fuel to the fire, America sits on the precipice of the fiscal cliff. Your taxes are about to rise significantly.
- The estate tax policies will become draconian and the middle class generational transmission of wealth will be all but halted.
- People on fixed incomes will suffer greatly and some will be forced out of their homes;
- Of course Helicopter Ben will be there to swoop up the crumbs with their MBS.
- Doctors treating the elderly will see an income reduction of 30%.
- Who will be left to medically treat the elderly?
- When granny dies because she cannot get her heart medication, how are family members going to respond?
- We are witnessing the Great American Fire Sale brought to you by the five megabanks on behalf of the Federal Reserve.

In parts one and two of this series, I spoke about how I personally know two ex-intel types who have already relocated to enclaves of like-minded people to what they believe to be safer areas.

I personally know of a third person who is in preparation.
They tell stories of coming gun confiscation and draconian gun enforcement, the rationing of resources, even more horrific false flag events which will be used to justify the seizing of our guns and yet, even worse unspecified events.

Some of you have demanded names, on these three families, but I cannot break the confidence. All of you in the media understand the importance of not giving up the identity of your sources.

I will say this: one source is a family who I originally had a professional relationship with and it grew into a sharing of confidences. This family has already relocated and I will not likely hear from them again. Their move was disruptive to the children of the family and their timetable was greatly accelerated.

Another source I have had for 4 years. The person is an in-law of a very close friend who I have known for years. Each encouraged me to come forward in a general way so people would start to prepare.

I have held this information for some time because I did not think I would be believed. However, it was only after Doug Hagmann came out with information from his DHS insider that, to some extent, validated what I had been told, did I decide to print what I know.

I am hoping that more unnamed sources will come forward in order that we can establish a preponderance of the evidence which will get people to stand up for their rights, their futures and their children.

I have written statistics courses for colleges. I have overseen master’s theses as a research instructor and consultant. I deal in facts and data and I am better at these skills than most.

I do not like using unnamed sources, except I think, in this case, the importance and urgency of the message outweighs the validity component.

At the same time, I would be skeptical of the veracity of these claims as well without further proof.
Therefore, let me turn my attention to verifiable intelligence sources, which accurately predicted what is happening in our time.

You want names, you say? My current sources are out of bounds.

However, my news director for my talk show, Annie DeRiso, and I have intelligence community contacts which goes back almost two decades who warned us of the times that we live in now.

Annie was married to Bill Pawelec, who was a freelance CIA operative. Bill and I had been friends for years prior to his meeting Annie.

At the time Bill contracted terminal cancer, Bill was in the process of planning to build a self-sustaining community in the approximate vicinity of Pagosa Springs, Colorado, which was going to be inhabited by like-minded intelligence community types.

This was such a serious endeavor that he and former NSA operative, Vance Davis, were in contact with the now defunct Enron Corporation to facilitate the construction.

Bill and Vance invited me to participate, so I had first knowledge of their plans.

Annie and I also had a lot of contact with the now deceased NSA operative AC Griffith, who was a guest on my show several times.

Griffith warned Annie and I about the coming gun confiscation which would utilize goon squads who would go house to house and eliminate any opposition.

AC said that they did not have the ability to canvas that many homes, but would work on the principle that the IRS uses when dealing with tax cheats.

Namely, they rule by intimidation by publicly punishing the few they catch in very harsh ways so as to intimidate the population.
Griffith also warned of an ever-increasing set of false flag events to come over the country as an excuse to impose martial law.

**Following his death, those closest to him find themselves being followed and harassed and have ceased any level of activism.**

For the naysayers, how is this for naming names? And while we are at it, in Jim Marrs’ most recent appearance on my talk show, he revealed that several hundred banking officials have stepped down from their positions and have not been heard from.

Interestingly, in the Hagmann interview, his DHS source alluded to the fact that DHS and Wall Street have parallel agendas.

**America, you are living history, right here and right now.**

The forces from the Federal Reserve are poised to literally steal as much as they can from Americans before the economic collapse.

And before the economic collapse, the government must get our guns.

**President Obama and Barbara Boxer are openly talking about the banning of guns. California and New York are poised to “buy back” guns.**

Seemingly, everywhere in the media, everyone is talking about banning guns.

**Again, I repeat, if the powers-that-be would refuse to directly protect our schoolchildren with armed guards on the campuses, then we have a right to question their motives in wanting to seize our guns.**

Genocides are preceded by gun confiscation. Revolutions are headed off by gun confiscations. What are Obama and his handlers heading off?

I believe that you have all the information you need to answer the question.
When Americans cannot feed their children, when they have no hope, when the world that they know is gone, they will seek vengeance. Any government under these circumstances would be crazy not to respond.

And respond they have, as the entire InfoWars team and popular talk show host, Michael Rivero had their Facebook accounts suspended.

You want more, you are going to get more unless I suffer the fate of Breitbart.

If you cannot handle the fact that your life is going to change significantly, then go read a book about how to water your garden, or go watch American Idol.

For those who feel that they need this information to start to prepare to survive what is coming, there will be more information coming forth that I pray you and your family can use.
I WAS NOT DELIVERED INTO THIS WORLD IN DEFEAT NOR DOES FAILURE FLOW THROUGH MY VEINS. I AM NOT A SHEEP WAITING TO BE PRODDED BY MY SHEPHERD. I AM A LION AND I REFUSE TO TALK, WALK, TO MERGE WITH THE SHEEP. I WILL NOT HEAR THOSE WHO WEEP AND COMPLAIN FOR THEIR THOUGHTS ARE CONTAGIOUS. LET THEM JOIN THE SHEEP. THE SLAUGHTERHOUSE OF FAILURE...

...IS NOT MY DESTINY.

SINCERELY,

F.P. COLL
